

HONGXIANG MENG

Clinical Pharmacology | Clinical Research | Evidence Synthesis | HEOR

menghongxiang@outlook.com

PROFILE

MSc (Med Sci) Clinical Pharmacology candidate at the University of Glasgow with a BSc in Clinical Pharmacy. Research experience in systematic reviews, meta-analysis and pharmacoeconomics, with practical use of R/RStudio, Rayyan, PubMed, Embase and Web of Science. Interested in clinical research, evidence synthesis, HEOR/RWE and healthcare data.

EDUCATION

- University of Glasgow — MSc (Med Sci) Clinical Pharmacology** 2025–2026
Dissertation: *Outcome Reporting, Healthcare Resource Use and Economic Evidence in People with Vasospastic Angina: A Systematic Review and Meta-analysis*
- Tianjin Medical University — BSc Clinical Pharmacy (Five-Year Programme)** 2018–2023
Dissertation: *Pharmacoeconomics of PCSK9 Inhibitors in Cardiovascular Disease: A Systematic Review*

SELECTED RESEARCH EXPERIENCE

- Vasospastic Angina Systematic Review & Meta-analysis — University of Glasgow** 2026
- Designed and applied eligibility criteria; searched PubMed, Embase and Web of Science; screened studies in Rayyan and completed structured data extraction.
 - Prepared study-level data and conducted random-effects meta-analysis and sensitivity analyses in R/RStudio; interpreted forest plots, confidence intervals and heterogeneity.
 - Synthesised clinical outcomes, patient-centred outcomes, healthcare resource use and economic evidence.
- PCSK9 Inhibitor Pharmacoeconomic Systematic Review — Tianjin Medical University** 2023
- Reviewed pharmacoeconomic evaluations in cardiovascular disease and synthesised evidence on treatment costs, health outcomes and cost-effectiveness.
 - Developed experience in critical appraisal of health-economic literature and structured scientific evidence synthesis.

CLINICAL EXPERIENCE

- Clinical Pharmacy Intern — Tianjin Medical University General Hospital** 2022–2023
- Clinical rotations included Hospital Pharmacy, Cardiology, Oncology, Respiratory Medicine, Endocrinology and Gastroenterology.

SKILLS

Systematic reviews · Meta-analysis · Evidence synthesis · Literature searching · Study screening · Data extraction · Critical appraisal · Pharmacoeconomics · Healthcare resource use · R/RStudio · Excel · Rayyan · PubMed · Embase · Web of Science · Zotero

LANGUAGES & INTERESTS

Mandarin Chinese: Native | English: Professional working proficiency (IELTS Academic 7.0) | Interests: Clinical Research · Clinical Pharmacology · HEOR/RWE · Evidence Synthesis · Healthcare Data
